

Lombok Relief and Reconstruction

📍 Indonesia - Lombok

In this program, you can support us in our relief efforts to the 2018 earthquake-affected communities of Lombok. Help us in continuing the flow of everyday emergency supplies. Lend a hand by working in our construction program by building temporary makeshift kitchens and sanitation facilities for the inhabitants of this idyllic island. This is a great opportunity to serve the community by responding to their needs in these particularly hard-hit areas.

Program Description

Join us in serving this lovely island, Lombok, that was hit hard by the earthquake of July-August, 2018. Hundreds and thousands of people are still displaced from major earthquakes that hit Lombok island then. Families are living under tarpaulin covers at an evacuation center. Like every other person, they too need shelter, water, food and sanitation.

We have decided to provide relief to people impacted by the earthquake in the form of emergency supplies like food, water, and medicine, in addition to longer-term recovery assistance like cleaning up the debris and making the area livable again for the residents.

This program is situated in the west of Lombok. Work in the affected areas by lending a hand to make the day to day lives of the local communities a little easier. Our aid is focused on food and sanitation. You can be of great help in setting up the temporary kitchen and sanitation facilities. You may also help them by supporting our charity programs to collect food, which they lack at the moment. We are currently donating instant noodles, rice, water, toiletries, cleaning equipment, etc with the people. With the coordination of the village head and community leader, we will continue to provide support by lending a hand in rebuilding villagers' houses.

After the completion of these activities in West Lombok, they will be carried on in the North.

Program Duration & Availability

Min duration (weeks): 1

Aims & Objectives

It aims to serve the July-August 2018 earthquake-affected communities through some construction work and delivering relief supplies.

Schedule

Monday

On Monday after breakfast, you will start by planning the program with your coordinator. After planning, you will have lunch and head out to work at the identified community location. Since today is your first day, you will basically learn about what is required to be done and immediately start working with the support of the coordinator.

In the evening, you will come back to the center and share your feedback at the meeting organized for you.

Tuesday to Friday

Now that you have planned your activities for the week, mornings will be utilized in planning and post lunch will be the implementation of the plan. The activities and contribution of effort will be planned on the ground with the help of our coordinator and you will concentrate on affected areas of Lombok island.

This schedule can be changed and/or amended depending on weather conditions, local conditions and unforeseen circumstances.

Starting Dates

During 2019

This program starts every week.

During 2020

This program starts every week.

Participant Criteria & Requirements

Minimum age:	-
Maximum age:	-
Minimum English level:	Basic
CRB required:	On Signup
