📍 Indonesia - Pejeng (Ubud)

If you like to participate in construction activities to make a positive difference in the lives of communities, this is the ideal program for you!

This project supports small village communities in and around Ubud. It aims to build and renovate buildings that are essential for the growth and development of the local community. Schools, playgrounds and public libraries are some of the places where your time and effort would make a difference to the local communities and their living conditions.

Physical Demand

## Program Description

In this program, you would be participating in laying bricks, doing carpentry, painting, laying tiles and landscaping/gardening. A local coordinator will provide guidance and training alongside local families.

Through participating in this social project, you will make a difference to the local community by helping in improving their living conditions. You would be in an artistic and relaxed environment where you are in charge of renovating and creating drawings and paintings in several kindergartens and primary schools around Ubud. This activity is fun and it would support your creativity during the process.

For all programs, it is imperative to remember that any money raised to help your project when you arrive in Bali will be very well received. Often it is hard for the participants to take too many supplies due to limitations on baggage weight but remember that Bali has some very developed shopping centers where supplies can be bought once you have arrived in the country. This is our recommended and preferred way to contribute to the program. Not only does it mean you do not have to cart the supplies on the plane with you, it means any money you spend will be invested back into the Bali economy.

Keep in mind that the program aims to support the local communities and therefore can tasks can change depending on what is most necessary/helpful.

## Program Duration & Availability

**Min duration (weeks):** 1

## Aims & Objectives

It aims to build and renovate buildings that are essential for the growth and development of the local community.

## Schedule

### Monday

On Monday, after breakfast, you would start planning the project with the coordinator assigned to you. After planning and receiving the relevant information, you can have lunch. After lunch, you will leave to your assigned community location. Once your time at the location ends, you can then return to the Center and attend a meeting where you can provide feedback regarding the first day at your placement.

### Tuesday to Friday

You will have some free time after you have your breakfast. After lunch, you will leave for your assigned community location where you will be able to do numerous construction and renovation activities which would truly leave a positive impact over the communities in need.

**This schedule can be changed and/or amended depending on weather conditions, local conditions and unforeseen circumstances.**
