## Program Description

The negative impact of the current lifestyle of people on the environment makes it necessary to pay more attention to the environmental issues. The world is changing and developing fast overtaking the natural environment. The global environmental issues have become critical because the human activities which harm the environment. It is high time that we take actions to stop environmental pollution and help save this planet. Keeping in mind the sustainable goals of the United Nations, this program aims at enhancing the community awareness of these global environmental issues. This program includes giving theoretical and practical knowledge to various institutes and groups in the community.

This program will be conducted at Schools, Kindergartens, Community Learning Centers, Canine Rehabilitation Centers, Women Empowerment projects and Monasteries in Kathmandu. Special focus will be given to awareness programs for school students.
