Hulhumale

Maldives

This little artificial island located in the Kaafu Atoll in Maldives was created with the vision of transforming it to an urban city which would be a haven for the increasing population of the country.

At present, it is one of the best locations of the country providing higher standards of living to its residents. Another reason for the popularity of this island is due to its close proximity to the capital of Maldives, Male. Hence, you will be able to buy most of the things that are required for you to have a great time during your stay in Maldives.
