Program Description

During your time at this program, you will be working with small children (ages around 3 to 6 years old) at local kindergartens spread around the Gatanga area.

Each class at the kindergarten is quite packed, with an average of 30 children per classroom! So the extra hands are certainly appreciated by the local staff.

You will collaborate with local teachers and assist them while they manage their class. But you will also have the opportunity to lead groups and create your own activities such as drawing, coloring, games, etc. So get creative!

Your main aim should be to practice English with the children through the use of creative expression; stories, poems, songs and games.

Even though the English language is widely taught in Kenya, the chance to practice it may not happen often enough in some of the rural areas. The ability to master English can greatly improve the life prospects for many local children.
