Program Description

Bahir Dar is one of the most popular travel destinations in Ethiopia. It has also been named as A Learning City in 2015 and as one of the Cities for Peace by UNESCO. Bahir Dar lies around Lake Tana which is now a World Heritage Biosphere Reserve. The lake houses 37 small islands; you will be visiting islands via a boat that has ancient churches that are hundreds of years old. Each of these churches with their striking murals and artistic impressions regales the spectator. They also house ancient scrolls which have significant value to scholars of history and to the general public also.

The local language spoken in Ethiopia is Amharic. Hawkers sell items of local arts and crafts, paintings and many other souvenirs. Go island hopping and get to these ancient churches which are going to give you a unique experience. The Blue Nile Waterfalls is spectacular and one of the most magnificent in Africa which is connected to Lake Tana. The height of the waterfall is a jaw-breaking 150 feet and about half a kilometer wide. There will be four days of immersion in Bahir Dar and one day for project orientation. These five days will act as a catalyst for meeting new participants. And by the end of this week, you will be eager to go to your selected projects.
