Program Description

You will play an important role in assisting the teachers in the classrooms and helping the early childhood development of the children in a primary school. You will get an opportunity to contribute to the teaching in the school and interact with the teachers and students while helping to improve the classroom activities.

There are over 120 children attending the school who are from various socio-economic backgrounds. Most of the children are from underprivileged families whose parents are not able to afford to pay for their kindergarten education.

We aim to help the early childhood education of these children and prepare them to start their education in primary school. Each child is provided lunch daily and the children also have the opportunity to develop their motor skills and take part in various sporting activities.

You will work with children aged 0 – 5 for five days a week, assisting the teachers in the classroom in various different aspects. The project is located 20km from Cape Town, making it an ideal location for those who wish to be close to the city.

Program Duration & Availability

Min duration (weeks): 2

Aims & Objectives

Offer a teaching experience in a local kindergarten in Cape Town while supporting local children.
