📍 Brazil - Sao Paulo

Contribute your help to kids and villagers that are living in poor areas of Sao Paulo by engaging in different types of tasks.

Our program provides an opportunity for you to help poor local families with upgrading their lifestyle standard. You can help them with a renovation project at their home, teach the kids english at the community center or help them with an area garbage cleanup. You might also get the opportunity to cook a nutritious meal for some of the families in the community.

Program Description

There are many poor families living in Sao Paulo. Many of the villages here are located along or near the river. Most of them are living in wooden houses and are missing good facilities like decent toilets and clean running water. Villagers living here are mostly working in the downtown area, but too often they do not earn enough to support their families..

In this program you will get to help these families. The kids typically only attend school for half a day, so after that you can teach them english at the community center. Be creative, teach them an english song or why not play some games with them. The kids in Brazil love playing sports, so if you are into that, the kids would love to teach you one of their games or play a football match with you.

Also, you will be working with an environmental club and can join them for some activities as separating garbage, sharing some information on global warming and water pollution etc. You can also help local families with renovation or light construction such as painting or repairing chairs and tables etc. Your typical day will be a variety of these tasks, depending on what help is needed during your time here.

Program Duration & Availability

Min duration (weeks): 1

Aims & Objectives

- Improve the village children's educational prospects and widen their cultural interactions
- Develop your teamwork and skills through hands on activity
- Provide you with experience and skills related to community development
