📍 Thailand - Singburi

Learn as you grow! That's right, spend your time learning all about how local farmers grow and harvest banana crops in Thailand.

This Agricultural Experience is a hands-on opportunity to learn and apply farming methods used by members of a local agricultural cooperative that is currently receiving governmental support. You will have the opportunity to do all of the work that keeps the growing process going.

Program Description

Even though Thailand is a tourist hub and is quickly becoming a place for technological growth in this region, there are still some areas that maintain a focus on the agricultural sector. This experience is a chance for you to get hands-on, as you work alongside a cooperative of local farmers in the Thachang district, for whom agriculture is a way of life. These farmers are supported in part by government subsidy to ensure they are able to keep up with the changing market needs.

As a part of this experience, you will work 4-5 hours a day. You will learn all of the steps used by these local farmers to bring this banana plantation from planting - to harvest - to prep for market/export. Daily tasks will include cutting banana leaves, watering, fertilizing, soil conditioning, harvesting, cleaning and packing.

There is a lot of hard work that goes into farming, but the results are nothing short of amazing!

Program Duration & Availability

Min duration (weeks): 1
