📍 Madagascar - Nosy Be

This beautiful island nation is the best place to work on our construction and renovation project.

Come to explore this country and participate along with the local people to renovate, build, and beautify their schools to create aesthetic institutions which will add value to the quality of education of the children. To nurture your latent talent towards creative usage of local resources in providing a better landscape for the local community.

## Program Description

The Construction and Renovation project at Nosy Be supports small communities in and around the island. It aims to build and renovate school buildings that are essential for the growth and development of the children along with the local community. You will work under a local coordinator who will provide you with guidance and training to work alongside the local families and other participants. The project involves hard physical and manual labour since you will be laying bricks, doing carpentry, painting, waterproofing, laying tiles, landscaping/gardening, as well as, improving the community's hygiene and sanitation facilities.

## Program Duration & Availability

**Min duration (weeks):** 1

## Aims & Objectives

To renovate, build, and beautify the schools to create an aesthetic institution which will add value to the quality of education of the children. To nurture your latent talent towards creative usage of local resources in providing a better landscape for the local community.

## Schedule

### Monday to Friday

You will begin with a meeting with the coordinator, discussing what is required during your stay at the project. The focus is on light construction work and you will be expected to help paint the school buildings, make tables and chairs, construct and renovate the playground, make pathways, build toilets, repair the school wall and help build new classrooms. Construction and renovation work is available in more places when required in the local area.

This schedule can be changed and/or amended depending on weather conditions, local conditions and unforeseen circumstances.
