## Program Description

---

Sri Lanka is a country with a no scarcity of stray dogs and cats. Our Dog Shelter program is exclusively for animal lovers who want to be a part of a great endeavour to care for stray and sick dogs and cats. Located close to the hill capital of Sri Lanka, Kandy, our dog shelter is a dedicated centre and home for over a hundred and fifty dogs and cats.

Activities at the centre include looking after the permanent residents at the house

- Feeding, bathing, walking and treating ill dogs and cats
- Catching the strays to get them sterilized
- Field clinics
- Adoption programs and finding homes
- Maintaining enclosures

The shelter is home for both dogs and cats and you will be assigned to look after them.

Your daily tasks may vary according to the needs and requirements of the shelter. The program runs from Monday to Friday, but if you want to continue working at the shelter during the weekends as well, you are more than welcome to do so. We highly recommend this program for a stay longer than 4 weeks. That is mainly because these animals take time to get to know you and build relations.

Your accommodation is also located at the shelter and if you are not comfortable to stay around either dogs or cats, we do not recommend this program for you.

## Things to consider before joining this program

- Be ready to take up the challenge to look after recovering or resident dogs and cats who are under different health conditions
- Make sure you have the rabies vaccination in your country before coming to Sri Lanka
