 Rwanda - Kigali

Share your time and energy with young minds eager to learn and grow. Assist staff at a local preschool providing quality education for community children.

Help local staff with managing the classrooms and providing educational activities in English to some of the community's youngest learners. The preschool can really use your assistance with materials, books, supplies and of course your energy, to provide local children with a fun, learning experience.

Program Description

During your program, you will be working in the pre-school and supporting the teachers - this is important, as the school has limited staff. You will be in charge of managing and arranging your own activities to promote learning (drawing, playing learning games, teaching basic English, etc).

Your input and efforts in the village preschool are important as they provide the children and their families a chance to meet and socialize with foreigners which creates a dynamic of cultural exchange. This an opportunity for both the participants and the children to learn about a totally new culture and to gain exposure, learn social skills and broaden perspectives. Providing strong cognitive stimulation regularly, gives young children an advantage in the future. Moreover, learning and practicing English is a strong addition to a child's skill set and ability to communicate effectively.
